

BOXmaker PRO

The BOXmaker PRO is an advanced packaging machine known for its automation and efficiency. It automatically adjusts slotting knives, guide rails, and creasing wheels, reducing changeover time between box models to 60 seconds. Capable of producing over 80 FEFCO box styles in a single pass, it features modules for slotting, creasing, cutting, printing, gluing, and die-cutting. The control unit with a touch-sensitive HD display allows for easy operation and customization, making it ideal for high-quality, flexible box production needs.

CHARACTERISTICS

Corrugated Board Type	single, double, and triple wall
Cardboard Thickness	up to 10mm
Cardboard Density Range	up to 1000g/m ²
Max. Board Size	2400mm width x 7000mm length
Min. Board Size	200mm width x 800mm length
Production Capacity	up to 1200 boxes per hour (FEFCO 200)
Slotting Knife	2 x 500mm (optional: in 100mm segments)
Distance between slotting knives	50mm - 140mm
Width Slotting Knife	8mm
Vertical Cutting Knife	2 x scalpel knife or 2 x circular knife
Scoring/Creasing Wheel	2 (optional 4)
Cross Cutting Knife	1
Power supply	6.1kw
Air Pressure	6-8 bar
Dimension	3400mm x 2300mm x 1700mm
Gross Weight	2600kg
Automatic Paper Feeding	NO
Handhole on Box Sides	YES 120mm x 160mm

OPTIONS

Printing module	with or without
Gluing module	with or without
Vertical cutting tool	Circular knives or scalpels
Cross cutting	Smart servo
Slotting knife	600mm
Additional creasing wheel	YES or NO
Die-cut	YES or NO
